Green Goings-On

Toilet Paper Reuse: No, not used paper—the unused paper on unused rolls. Cool project is coming soon courtesy of Group R.

Veggie Food: Send comments requesting veggie food here: <http://www.stanford.edu/dept/rde/dining/letusknow.htm>.

CSSC: We ratified the CSSC charter to join cool networks in California (21 Yea, 0 Nay). Read the charter here:

Mountaintop Removal: Email Emily (gruberte@stanford.edu) if you'd like to talk to an awesome guy working on (preventing, presumably) mountaintop removal.

Sustainable Success Stories

Climate Meeting: Stanford is considering some *very exciting* ideas for greenhouse gas mitigation. More details will come in April after the trustees review the options.

Shoe Recycling: 200 shoes were recycled, and a good partnership was started.
